Does what you see here support or align with your priorities? What can you adjust?

3

Pick one thing from the column on the right that you want to adjust and start with that—commit to it and DO IT!

See what difference it makes in your quality of life. Incentivize or reward yourself if that will help you succeed. Once it becomes second nature for you, come back to this worksheet and pick the next thing you would like to adjust and do the same thing. **Making small one degree adjustments regularly is the key to successfully making big changes in your life.**
